Personal Statement

I have successfully completed my bachelor degree in **Electrical and Electronic Engineering** from American International University-Bangladesh (AIUB) with a **hundred percent scholarship**. As an engineer, I am skilled in using software that are used commonly. Besides mastering **MS Word, PowerPoint and MS Excel** I also have experience with highly professional software like **Cadence and SolidWorks**. My education is specialized in **optoelectronics communication and biomedical engineering, Power generation and Distribution engineering**. I also have interest in Verilog hardware definition language and successfully completed research on carbon nanotube field effect transistor. Our design is one of the most efficient designs ever. The findings were published in renowned international journals. **It is my hobby as well as passion to implement and enjoy the simple yet incredible wonders of electronics. I was a part of several robotics teams including Mars Rover of AIUB and I have hosted some projects myself.**

I am also interested in IT sectors such as web designing and freelance programming. I have adequate knowledge in languages like C, C++, PHP, Java Script, VHDL and MySQL. **I have completed workshops and residential trainings in power stations. I am a freelance writer of several blogging sites.**

I have worked as a **network support engineer** at a renowned internet service provider (Doze Internet). I have firsthand experience in networking system and optoelectronics communications. I have also completed some CCNA certified network courses.
