To

HR Department

Please accept my CV as an expressed interest in exploring the possibilities of joining in your Company.

My academic history has provided me a variety of Technical skills which allow me to relate to all levels of management, to a variety of Technical positions, and work successfully with a diversity of personalities, customers, and end-users.

My project experience has provided me with a variety of information systems knowledge and practical skills; primarily in Web development. I also have proficient skills in Software Quality Testing.

I consider myself to be a results-oriented, dependable, and capable worker; who is not easily affected by job stress, and will be a strong asset to your department and organization in a variety of duties. I have already job experience in some software companies and I am a fast learner in any on the job training situation, if required.

I look forward to a personal interview at your convenience.

Sincerely,

Sakawat Hossain
