Independent Television | 2018 | Dhaka, Bangladesh

Area of Expertise

Electrical & Electronics

- AutoCAD
- NI Multisim
- Matlab
- Pspice
- Electrical Designing
- Transformer
- Networking

Information Technology

- Microsoft Office
- OS: Windows 7, 8, 10, 11
- Printer, software maintenance
- PC hardware assembling
- PC troubleshooting & repairing

Education

American International University-Bangladesh
B.Sc. in Electrical and Electronics Engineering | CGPA: 2.71 | 2018

Naogaon Govt. College, Naogaon
Science | GPA: 4.60 | 2012

Naogaon K.D. Govt. High School, Naogaon
Science | GPA: 5.00 | 2010

Academic Project

Finished a project titled "Remote Industry Supervisory Control and Data Acquisition"

This project was mainly focused on the development of supervisory control and data acquisition for the remote industry. Our goal was to take a shot at the Remote Site Safety and Security Application by Utilizing Controller to accomplish creating an information petition for each of the data loggers, assembling a controller area, organizing, collecting, and overseeing information in the Control Area Network, and sending SMS to an observing person. The GSM communication flawlessly executed data transfers from the remote sensor without any incidents. As all interactions between the data logger and the user were wireless, this led to the lowest cost compared to other systems.

Language Proficiency

Language	Reading	Writing	Speaking
Bangla	High	High	High
English	High	High	High

Personal Details

Father's Name	: S. M. Iqbal Hossain
Mother's Name	: Shelina Iqbal
